

About CTAE, Udaipur

College of Technology and Engineering (CTAE), Udaipur is a constituent college of Maharana Pratap University of Agriculture and Technology, Udaipur. Established in 1964, it presently offers B.Tech. programme in 7 disciplines, and M.Tech. and PhD programme in 10 disciplines. The college has been recognized as Outstanding Engineering College in Northern Region and awarded "Outstanding Institution Award" in 2013 by NITTR, Chandigarh. It also receives funding through MHRD and World Bank collaborative project of TEQIP-III (Technical Education Quality Improvement Program). With its dynamic curriculum at par with the best in the country, qualified and motivated faculty, supportive staff and excellent infrastructure, the college is a preferred destination of top ranking students of Rajasthan.

About MNIT, Jaipur

Malaviya National Institute of Technology, Jaipur, is one of the premier NITs, established by the MHRD, Government of India in 1963. In 2002, the college was given the status of National Institute of Technology, and on 15 August 2007, proclaimed as an 'Institute of National Importance' through an Act of Parliament. The Institute offers undergraduate and postgraduate courses (B.Tech., M.Tech./MBA/M.Sc. & Ph.D.) to about 5000 students, in fields of engineering, architecture, sciences, management and humanities & social sciences. Through internationally renowned faculty, laboratories with state of art equipment and excellent infrastructure, the institute is actively engaged in research, consultancy and developmental activities, besides regular teaching.

"TEACHING ENGLISH FOR EMPLOYABILITY AND SKILL ENHANCEMENT"

17th August, 2020 – 21st August, 2020

(4 sessions per day)

Jointly organized by

**COLLEGE OF TECHNOLOGY AND
ENGINEERING, UDAIPUR**

and

**MALAVIYA NATIONAL INSTITUTE OF
TECHNOLOGY, JAIPUR**

under

**COLLABORATIVE RESEARCH SCHEME (CRS)
PROJECT of TEQIP-III**

About the CRS Project

In 2019, MHRD in collaboration with AICTE, released the Collaborative Research Scheme under TEQIP-III to allow young TEQIP faculties recruited in different TEQIP institutes to collaborate and build a research community, and support innovation.

Under the scheme, the project titled, “English Skills for Employability: Empowering Engineering Students of Rajasthan in a Globalized World” has been granted a funding of Rs. 15.98 lakhs. The project outcomes aim to be multifaceted:

- Enhanced English Language Proficiency of engineering students for increased employability
- Improved content and innovative methodology for English Language Instructors
- Established network of trainers of English Language who will be equipped for teaching English as an employability skill
- Access to more skilled workforce for the employers

The project is a collaborative venture among College of Technology and Engineering, Udaipur (host institute), Malaviya National Institute of Technology, Jaipur and Central University of Rajasthan, Ajmer.

Team of collaborators:

Principal Investigator: Ms. Nitika Gulati,
CTAE, Udaipur

Co-Principal Investigator: Dr. J. K. Meharchandani,
CTAE, Udaipur

Co-Principal Investigator: Dr. Preeti Bhatt,
MNIT, Jaipur

Co-Principal Investigator: Dr. Sanjay Arora,
CURAJ, Ajmer

About the FDP

While English forms a part of the core curriculum in the first year of engineering degree courses, the narrow focus of the syllabus and the limited time-period allotted to its teaching does not allow the learners to develop linguistic competence in English during the course of their study. Consequently, the students who have acquired technical knowledge and expertise by the end of their programme lack the optimum level of communicative ability in English, are considered unfit for jobs in multinational companies, and are rejected during the placement process. Students must be trained for employability from the first year itself and their skills must be tested every year to monitor their improvement and measure their newly acquired skills.

The FDP is being organized to encourage English language faculty, especially of engineering institutes of Rajasthan, to adopt employability-centric pedagogy that utilizes technology to cater to the specific needs of students. This will be achieved by training them in:

- identifying the gap between existing and required linguistic proficiency levels for the employability of students and analyzing their specific needs
- developing appropriate content and curriculum to fill this gap and cater to their needs, keeping in mind local contextualization and ensuring equity of access
- devising innovative content delivery models and mechanisms using blended methodology (instructor-cum-technology)
- testing the content and delivery models on students and measuring their impact

Speakers
